Tips

First game jam? No worries!

- In room 1.262 you'll always find someone to help you out
  - Ask us or other people to play-test the game when you have a prototype :)
- Make sure you plan conservatively! (scope creep)
  - Ask us for an opinion as soon as you have a plan
- Plan a schedule and check each day how far you've gotten
  - Back-up plan in case something fails
- Submit the game as soon as it's in a working state
  - You can re-submit as many times as you want

Teams

For those who aren’t in a team yet: now is your time to collab!

VIEL SPASS AM
